

Customer End Use/End User Statement for EAR Controlled Products and Services

Organization Name: _____

Organization Address: _____

Cullimore and Ring Technologies, Inc. ("CRTech") products are considered "Country of Origin: U.S.A." Therefore, they may not be sold, exported or re-exported to any person or entity designated as prohibited or restricted by an agency of the US government. Sales or retransfers of CRTech products or services may not be made to countries prohibited by the U.S. Government. See "Lists to Check" at www.bis.doc.gov/ for a complete listing of prohibited parties. The primary agencies that administer and enforce these laws and regulations are the [Bureau of Industry and Security](#) and the [Office of Foreign Assets Control](#).

For the following statements, check the relevant boxes to indicate agreement.

- The above individual and their associated organization certify that they are the final recipient of CRTech products and have no intention of re-exporting said products to anyone else or of transferring said products to a different end-user.
- The above individual and their associated organization understand that the sale, export and re-export of CRTech hardware, software, data, service or support are subject to the laws and regulations of the United States. Any act of diversion of said products contrary to US law is strictly prohibited.
- The above individual and associated organization certify that they will not use CRTech's hardware, software, data, service or support for the design, development, manufacture, use or repair of nuclear, biological or chemical weapons, or for missile technology as described in Part 744 of the Export Administration Regulations. Details of the Export Administration Regulations (EAR) can be found at <https://www.bis.doc.gov/>.
- The above individual and associated organization are designated "military end users". Military end users include the military branches, the national guard, national police, government intelligence or reconnaissance organizations, or any person or entity whose actions or functions are intended to support military end uses.

Specify how this equipment will be used at the final destination

Select one of the following four options, select a sub-application, and describe its use in detail including what you are modeling and its function.

1) Military application:
